## EDUCATIONAL GROUP July 2023

the **testing, scheduling, skills tracking,** and compliance **reporting** *experts*

## Let Freedom Ring!

We not only get to celebrate **Independence Day** in July, but we get to celebrate **National Picnic Month** and **National Grilling Month!** In most towns in the United States, there is something fun going on locally. Enjoy a parade, a cookout, or fireworks. It is a great time to get out in the community and have some fun. As always, give a special "thank you" to your local Firefighters and EMS team. **To all you EMS educators — thank you from all of us at Platinum!**

## News You Should Know

100+ applicants and counting!

PLATINUM EDUCATIONAL GROUP

## From Our COO

In the world of Emergency Medical Services (EMS), ensuring high-quality education and training is crucial for the delivery of effective prehospital care. Accreditation serves as the gold standard, ensuring that EMS education programs meet rigorous standards and produce competent and skilled EMS professionals. In this newsletter article, we will explore the significance of accreditation for EMS education programs and its impact on patient care quality. [Read the full article here!](#)

## News from Our Allies in Education

Every month we feature news snippet from our allies in EMS education. Wanna be featured? [email us!](mailto:info@platinumplanner.com)

Continuous Quality Review: Strategies To Improve The Educational Program  
Wednesday, August 2  
1PM Central Time

Programs should evaluate their services in a variety of ways, obtaining input from multiple sources. This presentation will review available tools, appropriate intervals, and best practices from participants.

Advancing Evidence-Based, People-Centered EMS Care

What a difference a generation makes—in 2007, a report from the Institute of Medicine pointed out the lack of evidence supporting most prehospital patient care protocols and practices. While most EMS systems were making treatment decisions based on what they felt was best for patients, there was little evidence to back it up.
